

Where does the wildfire-recovery money come from?

Each arrow shows where a contractor on the Greek *Anti-nero IV* reforestation programme is registered, pointing to the regional unit (Π.Ε.) where the work is carried out. Arrow thickness is proportional to total contract value. Choropleth shades each region by the money landing there.

136 of 137 contractors located · 581,48 M € of 586,89 M € mapped (99 %). The remaining 1 could not be placed.
